Diplomacy Needed

Governor Oddie of Nevada is going to experience a stormy session when the next legislature convenes at Carson. The governor is a republican while the legislature will be democratic. Two years ago considerable trouble was experienced by the governor with the legislature, owing to the actions of a certain member of his cabinet who evinced a strong desire to dictate his opinions and secure the passage of all administration measures. Every effort met with disaster and during the special session the antagonism of the legislators toward this cabinet member was not concealed in any way.

It is expected that the same state officer will again attempt to handle the reins of the state government during the approaching session, and if this proves to be the case, his official life is assured of a speedy end. Personal feeling against a backer of any measure will do more toward killing a bill, that could be accomplished otherwise in an entire session. It has always happened that the merits of a measure will not be considered when a worker on behalf of the measure excites the ill-will of the legislature, and this fact was ably demonstrated time and time again two years ago. What the result will be during the next session does not call for deep thought and the sooner the governor places a pair of hobbles on the officer in question, the better the interests of the state will be cared for.

The next legislature will be called upon to decide a number of questions of great importance to this state and in order to secure careful and unprejudiced consideration a little diplomacy on the part of the state's chief executive will not be amiss.

Two years ago eight newspapermen were candidates for office in various parts of this state. Of that number but one was elected. This year nine printers, or newspapermen were candidates, and all were elected but one. Who says that the voters are not thinking for themselves.

J. A. Wayland, owner of the Appeal to Reason, who committed suicide Monday, is reported to have left a fortune estimated at \$100,000. No republican or democratic newspaper man can be blamed now for embracing socialism.

A downward revision of the tariff was the principal plank in the democratic platform this year and now that the democrats will control congress for the next two years it is a safe bet that the revision will not be made.

The campaign card collector, calendar collector and tax collector can always be depended upon to make their appearance in the order named. It is great to have a hobby.

Nye county is now about third in the state with regard to population. Now that the election is over watch it slip into second place before the next two years are over.

Women will be eligible for notary public appointments in Nevada after January 1. But what man is going to swear to a document before a woman?

Schrank pleaded guilty to taking a pot shot at Colonel Roosevelt. Had the defendant been a millionaire he would have tried to prove an alibi.

Eating crow has been a popular pastime since last Tuesday. There is no danger, however, of the sport ever becoming a rage.

In another week or two it will be positively announced who was elected United States senator and congressman from Nevada.

"They have got to quit kicking my Turkey around," is the slogan now heard at the cabinet meetings of the European nations.

The people who placed bets on the outcome of the senatorial fight in Nevada are securing a run for their money.

The price of Turkish cigarettes remains the same, although all the cigarette makers are now engaged in fighting.

No protests have been heard over the policy of silence recently adopted by Colonel Roosevelt.

The sultan of Turkey can now appreciate how Roosevelt and Taft felt the day after election.

ROTARY DRILL IS BEING USED IN RAILROAD VALLEY

PROMOTERS OF RECLAMATION PROJECT ARE ENDEAVORING TO SECURE WATER

In Railroad valley search for potash deposits has been resumed by the Railroad Valley company which has installed an Empire rotary drill in place of the Keystone churn drill which was used to put down the first hole, says the Expositor. With the Empire drill a core can be removed from solid formation which will enable the management of the company to learn more of the actual composition of the different strata than is possible when a churn drill is used.

The Empire drill in use at present brings out a six-inch core and is situated in the south end of the valley, about seven miles south from where the first stand was made with the Keystone. The company is to install another Empire drill which will be larger and capable of bringing up a core ten inches in diameter.

With the six-inch rotary the progress has averaged 22 feet a shift or 44 feet daily. The hole is now down 600 feet. When the larger rotary is received it will be placed in the north end of the valley as the company intends to systematically prospect the whole flat of the ancient lake bed in this manner as the promoters of the enterprise feel confident their efforts will be rewarded by the finding of commercial deposits of potash in some form that will be profitable to work. By means of the rotary drills cores can be brought up from the depths of 1000 feet.

The company is also proceeding with its reclamation project and recently an engineer in the employ of the United States government was in Railroad valley and went over the company plans with Superintendent Walker. The engineer pronounced the scheme of preparing to irrigate 50,000 to 60,000 acres of land by means of artesian waters entirely practicable in his opinion. Surveys of the lands are being completed to learn the variations in elevation so the wells can be drilled at the right places to supply water on the areas to be reclaimed and brought under cultivation.

As only news of real value-giving makes good store advertising, it follows that a store must be able to print such news, in abundance. If its advertising is to accomplish anything.

CHEERFUL NEWS

FOR FEEBLE OLD PEOPLE

As one grows old the waste of the system becomes more rapid than repair, the organs act more slowly and less effectually than in youth, the circulation is poor, the blood thin and digestion weak.

Vinol, our delicious cod liver and iron tonic without oil is the ideal strengthener and body-builder for old folks, for it contains the very elements needed to rebuild wasting tissues and replace weakness with strength. Vinol also fortifies the system against colds and thus prevents pneumonia.

A grand niece of Alexander Hamilton over 80 years of age once remarked: "Vinol is a god-send to old people. Thanks to Vinol I have a hearty appetite, sleep soundly, feel active and well. It is the finest tonic and strength creator I have ever used."

If Vinol fails to build up the feeble, old people, and create strength we will return your money. Miners' Drug Store, Inc., Tonopah, Nev.
